AFFIDAVIT IN SUPPORT OF SEARCH WARRANT

I, John Bret Hamilton, a Special Agent of the Drug Enforcement Administration, United States Department of Justice, being duly sworn, deposes and states the following:

APPLYING OFFICER

1. I am an investigative or law enforcement officer of the United States within the meaning of Section 2510(7) of Title 18, United States Code. I am empowered by law to conduct investigations of and to make arrests for the offenses enumerated in Section 2515, Title 18, United States Code.
2. For approximately eleven (11) years I have been so employed as a Special Agent of the DEA. Since that time, I have participated in investigations involving organized crime and narcotics activities. I, along with members of the investigative team I work with have received specialized training in identifying and investigating narcotics distribution enterprises and their related criminal activities, including monetary and asset laundering. I, along with members of the investigative team I work with have participated in all or parts of a number of such investigations. Members of the investigative team I work with have gained investigative specialization in the area of methamphetamine, cocaine, marijuana, and/or polydrug conspiracies. I, along with members of the investigative team have received in service continuing professional education in this area of law enforcement and review agency and other publications to stay abreast of developments in this field of law enforcement.
3. My training and participation in investigations of narcotics traffickers and others involved in illegal businesses and activities have given me knowledge to recognize the methods used by narcotics traffickers and money launderers to conceal their assets, income and activities from the government and other third parties. Based on my training and experience, I know the following:

(a) that drug traffickers generate tremendous profits from these illegal activities. These individuals attempt to hide their illegal activities to avoid detection by law enforcement agencies;

(b) that drug traffickers often place assets, purchased by them, in names other than their own to avoid detection of these assets by law enforcement agencies;

(c) that even though these assets may be in other persons' names, the drug traffickers continue to use these assets and exercise control over them;

(d) that drug traffickers must maintain large amounts of currency and/or controlled substances readily accessible to them in order to maintain and finance their ongoing illegal activities;

(e) that drug traffickers maintain books, records, receipts, bank statements and records, money drafts, letters of credit, money orders, cashier's checks, documents relating to safety deposit boxes, and other documents and audio and video tape recordings evidencing the acquisition, secreting, transfer, and concealment of assets and currency. These records are maintained at a place such as a residence, business, and safety deposit box where the individual has ready access to these documents and they are concealed from law enforcement authorities;

(f) that drug traffickers commonly "front" (provide illegal controlled substances on consignment) to their clients. That books, records, receipts, handwritten notes, ledgers, and audio and video tape recordings are maintained for the purpose of documenting fronted controlled substances to these individuals. These records are maintained at a residence, business, or safety deposit box where the individual has ready access to these documents and they are concealed from law enforcement authorities;

(g) when drug traffickers accumulate profits from the sale of these drugs, they frequently try to legitimize those profits. In order to accomplish this,

they utilize foreign and domestic banks, accounting firms, securities, cashier's checks, money drafts, letters of credit, brokerage houses, real estate and business fronts;

(h) that drug traffickers commonly maintain addresses or telephone numbers and books or papers which reflect names, addresses and/or telephone numbers of their associates and clients in their drug trafficking activities and that they maintain these records at their residence, the residence of relatives, the residence of a girlfriend, business, or in a safety deposit box where they are concealed from law enforcement authorities;

(i) that drug traffickers maintain safety deposit boxes as a place to store the large amounts of currency generated through the sale of illegal drugs. Safety deposit boxes are used because the individual has ready access to the contents of these boxes and the contents are concealed from law enforcement authorities including the Internal Revenue Service;

(j) that drug traffickers purchase and maintain caches of precious metals, jewelry and other items of value relating to obtaining, transferring, secreting or spending large sums of money made from engaging in drug trafficking activities at their residence, business, automobiles, storage buildings and safety deposit boxes;

(k) that drug traffickers frequently take or cause to be taken photographs or videotapes of themselves, their associates, their properties, and their contraband and that these traffickers maintain these photographs or videotapes at their residence, business, and safety deposit box;

(l) that drug traffickers attempt to conceal their methods of travel by using false names and identification;

(m) that drug traffickers attempt to conceal their methods of communications and contacts with associates (use of telephones or other communication devices);

- (n) that drug traffickers often use scanners, and electronic equipment for communication and detection of transmitters and recorders;
 - (o) that drug traffickers maintain firearms which are readily accessible for use as protection of the trafficker, his cash or other valuables, and drugs, and for use during and in relation to drug trafficking, and that Federal courts have consistently recognized firearms as "tools of the trade" of drug trafficking;
4. Presently, I am part of a team of highly experienced narcotics and law enforcement agents/officers. This team has been investigating the criminal activities committed by a narcotics organization that the investigative team has identified as operating in violation of Title 21, U.S.C. Section 841, 843(b), and 846 and other statutes.

INTRODUCTION

5. This affidavit is submitted in support of an application for the issuance of a search warrant for 15 May Street, Montgomery, Alabama, which is located in Montgomery County. It is my opinion and the opinion of the investigative team as experienced, trained narcotics investigators, there exists probable cause to believe that evidence will be found in violation(s) of 21 U.S.C. 841 and 846 (possession with intent to distribute/distribution of controlled substances, and/or conspiracy to do so): of 21 U.S.C. 843(b) (unlawful use of a communications facility to distribute cocaine. The violations have been committed by persons known and as yet unknown to the investigators.
6. Cocaine hcl (also referred to as powder cocaine) and cocaine base (also referred to as crack cocaine) are the drugs that are the primary focus of this investigation. Based on information supplied by the confidential sources, as well as the analysis of the information generated by the investigators to date, it is conservatively estimated that the known members of the enterprise are directly responsible for supplying large quantities of cocaine

hcl and cocaine base to distributors and abusers in the Montgomery, AL and surrounding areas. Confidential source information received as recently as the date of this affidavit has revealed that the organization is continuing to traffic in cocaine hcl and cocaine base.

7. Since this affidavit is being submitted for the limited purpose of securing authorization for the acquisition of a search warrant for the listed location, I have set forth only the facts that I believe provide a necessary foundation for the issuance of the search warrant for the listed and described location.
8. The statements contained in this affidavit are based in part on reports provided by Special Agents of the Drug Enforcement Administration, on reports and conversations with detectives and officers who work within Montgomery County and on information provided by reliable confidential sources of information, on conversations intercepted through lawfully authorized electronic surveillance and the background of the members of the investigative team.

16. Based on the earlier conversation between CS-1 and GOODSON, agents decided to meet with CS-1 and CS-2 again at approximately 4:40 PM on the same day. CS-1 was again instructed to call GOODSON'S cell phone, (334)651-4003, to ensure GOODSON had the cocaine base. GOODSON answered the phone and spoke with CS-1 about the crack cocaine and indicated that he (GOODSON) had it. CS-1 was again provided with a video and audio recording device and \$1,100.00 of Official Advanced Funds (OAF). Agents searched both CS-1 and CS-2 and their vehicle for drugs, weapons, large sums of money and other contraband with negative results. Agents followed CS-1 and CS-2 again to the corner of Bell and May Streets and CS-1 then walked to 15 May Street as CS-2 waited in the vehicle.
17. Via the transmitter/recorder, CS-1 could be seen approaching GOODSON. CS-1 informed GOODSON that he/she wished to purchase one ounce of cocaine base for someone else and an eighth of an ounce for himself/herself. GOODSON then gave CS-1 one small bag and one larger bag, both containing suspected cocaine base. CS-1 then paid GOODSON \$1,100.00 of OAF.

18. CS-1 left Westside Tire and walked back to where CS-2 was waiting and both drove back to the prearranged meeting location where they met with SA's Hamilton and Thompson and TFO Spivey again. The subpoena requested current subscriber, billing and any other information listed on the application for power for 5121 Short Leaf Pine Drive, Montgomery, AL 36116.
